Re: Objection to Class Action Settlement
Case No. 21-cv-03361-AMO - Caccuri, et al. v. Sony Interactive
Entertainment LLC

OBJECTION TO PROPOSED CLASS ACTION SETTLEMENT

Dear Honorable Court,

I am a member of the settlement class in the above-referenced action and submit this letter to formally object to the proposed settlement.

I object to the settlement on the following grounds:

Mail body: Pics

1. Inadequate compensation

The proposed relief is insufficient in relation to the alleged harm and the scope of affected consumers. The value provided does not reasonably reflect the purchases made by class members during the class period.

2. Non-monetary relief structure

The settlement's reliance on PSN credits instead of direct monetary compensation is not an adequate remedy for consumers who spent real currency on digital purchases.

3. Disproportionate benefit structure

The distribution of settlement value appears to disproportionately benefit attorneys' fees relative to the compensation available to class members.

4. Fairness concerns

Overall, the settlement does not appear to fully account for the extent of consumer harm alleged in the case.

For these reasons, I respectfully request that the Court carefully review the fairness of the proposed settlement and consider rejecting or requiring modification of its terms.

I declare under penalty of perjury that the foregoing is true and correct.

Respectfully submitted,

David antunez
